

# Revising Aggregations - The Count Function

Query a *count* of the number of cities in **CITY** having a *Population* larger than **100,000**.

## Input Format

The **CITY** table is described as follows:

**CITY**

Field	Type
ID	NUMBER
NAME	VARCHAR2(17)
COUNTRYCODE	VARCHAR2(3)
DISTRICT	VARCHAR2(20)
POPULATION	NUMBER

Solution:

```
SELECT COUNT(DISTRICT) AS COUNT
FROM CITY
WHERE POPULATION > 100000;
```
