Revising Aggregations - The Sum Function

Query the total population of all cities in **CITY** where *District* is **California**.

Input Format

The **CITY** table is described as follows:

CITY

Field	Type
ID	NUMBER
NAME	VARCHAR2(17)
COUNTRYCODE	VARCHAR2(3)
DISTRICT	VARCHAR2(20)
POPULATION	NUMBER

Solution:

```
SELECT SUM(Population)
FROM CITY
WHERE District= 'California';
```
